

## Conditions for becoming an integrated member of the Chemistry Centre - Vila Real

To become an integrated member of the Chemistry Centre - Vila Real, the researcher, with a doctoral degree, must demonstrate a minimum productivity of an average of 4 articles (Q1 or Q2) in the last 4 years.

Additionally, for the counting of the number of articles, these can be replaced by granted patents or projects.

Their scientific activity must be framed within one of the four existing lines of research.

Fernando M. Nunes

Director of the Chemistry Research Centre – Vila Real
